

Trimble Field Points

TRIMBLE FIELD POINTS v9.0

We are pleased to announce releases of the Trimble Field Points software v9.0 compatible with Autodesk® AutoCAD® 2022 and Autodesk® Revit® 2022.

This document provides you with an overview of enhancements and/or modifications included in this release of our software.

AutoCAD® 2022 Compatible Applications

- Annual Compatibility Release v22.9.0.13

Revit® 2022 Compatible Applications

- Annual Compatibility Release v22.9.0.9

Improvements & New Features

- AutoCAD and Revit-Search Field Points
- AutoCAD and Revit-Export Markers
 - You can now skip placing points over markers and directly export your existing markers into a .CSV file. Please note that this negates the 'Round-tripping' feature.
- AutoCAD and Revit-Trimble Identity v4 Migration for Trimble Connect
 - When clicking the Connect button you will now be taken to the internet for credentials. This was implemented for cyber security compliance.
- Revit-New option in "Apply To" to add instance in Place points over a Family, Markers, or Fabrication Part
- Revit-Place points on Fabrication Parts

Update Information

Please ensure that you install the Trimble Field Points software version compatible with the appropriate version of AutoCAD or Revit.

Caution – It is not recommended that you upgrade an active project (especially in work shared Revit projects) unless there are specific bug fixes that apply to your situation.

Caution – If you must upgrade a project before its completion, Please refer to Autodesk for best practices

Caution – It is recommended that you create a backup of your project prior to the upgrade

Trimble Field Points Installation through Trimble Installation Manager

Step 1: Download and Install Trimble Installation Manager (TIM)

Use the link Below to download the Trimble Installation Manager (TIM)

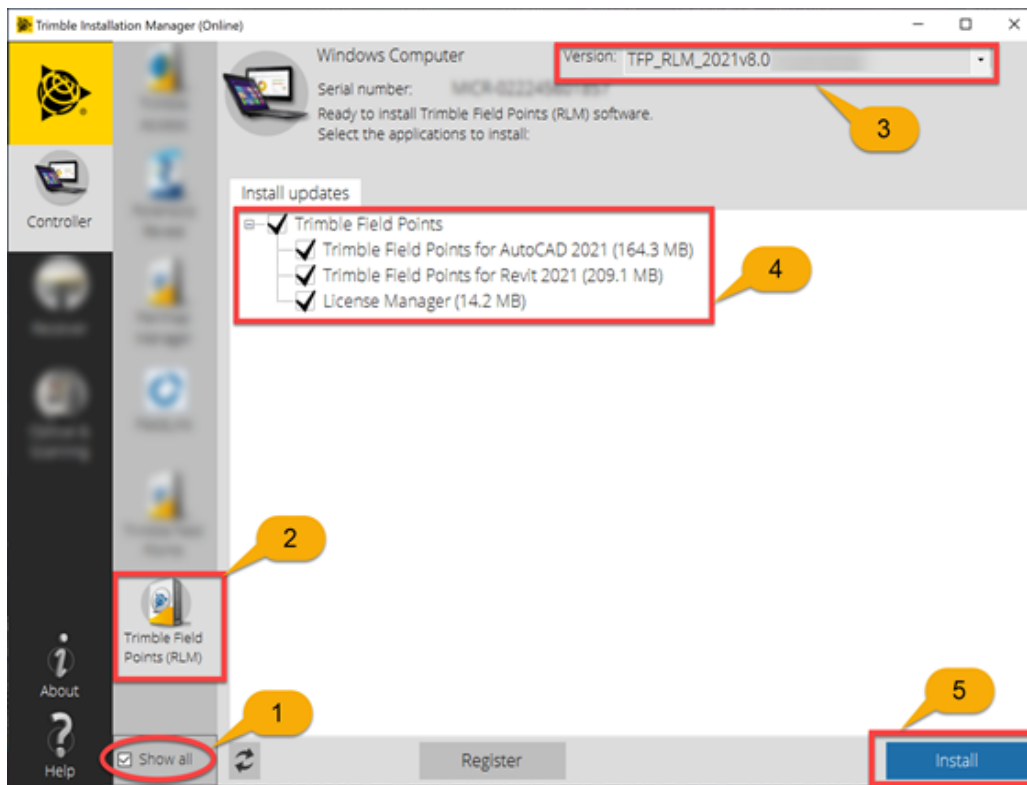

<https://www.trimble.com/installationmanager>

Select "TIM for Windows - Online" and run the installer.

Step 2: Installing Trimble Field Points

Once you have installed and launched TIM, please follow the instructions to install the Field Points software onto your PC.

1. Select the 'Show all' option.
2. Select the 'Trimble Field Points (RLM)' button.
3. Using the drop down carrot select the desired version of Trimble Field Points.
4. Toggling the check boxes, choose if you want some or all of the options.
 - a. **Note:** if this is your first time installing your license on your PC 'License Manager' will need to be checked for install.
5. Once you have the appropriate selections click the 'Install' button.
 - a. **Note:** The appropriate versions of AutoCAD and Revit will need to be installed on your PC prior to this action.
